The total number of military personnel is over 3.6 million strong, including DoD Active Duty military personnel (1,388,028); DHS's Active Duty Coast Guard members (41,849); DoD Ready Reserve and DHS Coast Guard Reserve members (1,086,447); members of the Retired Reserve (212,314) and Standby Reserve (16,327); and DoD appropriated and non-appropriated fund civilian personnel (907,121). INTRODUCTION

This Demographics Report presents a synthesis of demographic information describing Active Duty (Army, Navy, Marine Corps, Air Force, and DHS's Coast Guard) and Reserve component (Army National Guard, Army Reserve, Navy Reserve, Marine Corps Reserve, Air National Guard, Air Force Reserve, and DHS's Coast Guard Reserve) members and their families. It serves as a reference tool for professionals who develop policy or deliver programs and services to military members and families in the Armed Forces. For previous years' reports, please visit the Military HomeFront Portal at <http://militaryhomefront.dod.mil>.

The 2012 Report

To provide a holistic profile of the military community, the 2012 Report presents demographic information for Active Duty and Reserve and Guard personnel. In addition, selected Census data are presented as a point of reference, and military demographics trends for 1995, 2000, 2005, 2010, 2011, and 2012 are included where possible.

Presentation of Information

Military member demographics and family demographics are presented separately for Active Duty and Reserve and Guard populations as follows:

- Section I: Total Military Force
- Section II: Active Duty Members
- Section III: Reserve and Guard Members
- Section IV: Total Force Families
- Section V: Active Duty Families
- Section VI: Reserve and Guard Families
- Section VII: Reference Tables
- Data Sources and References

The data contained in this publication were derived from a variety of sources and, in general, only data that are available on a consistent basis for all Services are presented. The majority of data are managed by the Defense Manpower Data Center, particularly the Active Duty Military Personnel Master File, the Active Duty Military Family File, the Reserve Components Common Personnel Data System, and the Reserve Components Family File.

All exhibits included in this report contain source citations, and the Data Sources and References section of this document provides a reference for all data sources. Readers needing additional information are encouraged to directly access the listed sources.

Guidelines for Interpreting Data

Guiding principles for interpreting data include:

- Numbers for population groups (e.g., Active Duty, enlisted members) may vary across exhibits as a result of different data sources, missing data, and/or rounding.
- Percentages may not total to 100 due to rounding or missing data.
- Warrant officers are included with officers unless otherwise noted.

In the Active Duty sections of this report, data are presented for the four DoD Service branches (Army, Navy, Marine Corps, and Air Force). Some information about the DHS's Active Duty

Introduction

Coast Guard is presented in the Total Military Force section of this report. In the Reserve and Guard Members section, the label “Total DoD” is used to reflect the six Reserve components under DoD (Army National Guard, Army Reserve, Navy Reserve, Marine Corps Reserve, Air National Guard, and Air Force Reserve), while “Total Selected Reserve” includes DHS’s Coast Guard Reserve data in addition to data from the DoD Reserve components.

The data pertaining to Reserve and Guard members depict the Selected Reserve and the National Guard and do not include any other Ready Reserve forces (i.e., Individual Ready Reserve and Inactive National Guard) unless otherwise specified. The introduction to Section III describes the composition of the Reserve forces of the United States and explains why most data displays are limited to Selected Reserve personnel.

All data pertaining to Active Duty and Selected Reserve family members (i.e., spouses, children, and adult dependents) are extracted from the Defense Enrollment and Eligibility Reporting System (DEERS). Therefore, the data are dependent on the military members reporting the necessary information.

TOTAL MILITARY FORCE

**1.01. Military Personnel
(N=3,652,086)**

This pie graph presents the total number of Active Duty and Reserve and Guard members from all branches of the DoD and the DHS Coast Guard, as well as the civilian personnel who support the DoD. Overall, the total military force comprises 3,652,086 people. DoD's Active Duty members make up 38.0 percent of the total military force. Data for all DoD Active Duty members are presented in Section II.

All Reserve and Guard manpower is assigned to one of three Reserve Component categories: the Ready Reserve, the Standby Reserve, or the Retired Reserve. The Ready Reserve makes up 29.7 percent of the total military force. The Ready Reserve comprises the Selected Reserve, the Individual Ready Reserve, and the Inactive National Guard. Because Selected Reserve members train throughout the year and participate annually in Active Duty training exercises, they are the primary focus of the Reserve sections of this report. DHS's Coast Guard Reserve members are frequently called for duty; therefore, their data are included as well. Data for all Selected Reserve members are presented in Section III.

* Includes Coast Guard Reserve.

** Includes Non-Appropriated Funds civilians and Appropriated Funds civilians.

Note: Percentages may not total to 100 due to rounding.

SECTION III: RESERVE AND GUARD MEMBERS

This section contains numeric data on the Reserve and Guard population, including the DoD Reserve and Guard components as well as the DHS Coast Guard Reserve. All Reserve and Guard manpower is assigned to one of three Reserve component categories: the Ready Reserve, the Standby Reserve, and the Retired Reserve. The first two exhibits in this section present information on Ready Reserve personnel. The Ready Reserve comprises the Selected Reserve, the Individual Ready Reserve, and the Inactive National Guard. Because Selected Reserve members train throughout the year and participate annually in Active Duty training exercises, the rest of the exhibits in this section are focused on the Selected Reserve. The specific characteristics of the Selected Reserve components addressed in this section include gender, race/ethnicity, geographic location, age, education level, marital status, and retirements and losses.

READY RESERVE PERSONNEL

3.01. Ready Reserve Officers and Enlisted Members (N=1,086,447)

The distribution of officers and enlisted personnel of the Ready Reserve is depicted in this pie graph. The Ready Reserve is a major source of manpower and includes the Selected Reserve, the Individual Ready Reserve (IRR), and the Inactive National Guard (ING). IRR and ING members typically have served as Active Duty or Selected Reserve members in the past, but do not currently participate in organized training. Selected Reserve members train throughout the year and participate annually in Active Duty training exercises. Across all components of the Ready Reserve, there are 157,948 officers and 928,499 enlisted members.

Note: Percentages may not total to 100 due to rounding.

SECTION VII: REFERENCE TABLES

This section contains information on 2012 and 2013 basic monthly pay and allowances, comparative pay grades and ranks, and United States and International base populations and locations.

2012 BASIC MONTHLY PAY

Pay grades are administrative classifications used primarily to standardize compensation across the military services. The “E” in E1 stands for “enlisted” while the “1” indicates the pay grade for that position. The other pay categories are “W” for warrant officers and “O” for commissioned officers. Basic monthly pay for 2012 is rounded to the nearest dollar (e.g., \$2,416.20 is rounded to \$2,416 and \$2,514.60 is rounded to \$2,515). If no dollar amount is listed, then a dollar figure is not established for that category.

2013 BASIC MONTHLY PAY

Pay grades are administrative classifications used primarily to standardize compensation across the military services. The “E” in E1 stands for “enlisted” while the “1” indicates the pay grade for that position. The other pay categories are “W” for warrant officers and “O” for commissioned officers. Basic monthly pay for 2013 is rounded to the nearest dollar (e.g., \$2,416.20 is rounded to \$2,416 and \$2,514.60 is rounded to \$2,515). If no dollar amount is listed, then a dollar figure is not established for that category.

2013 DRILL PAY FOR ENLISTED MEMBERS

Drill pay is the amount Reservists are reimbursed for training. One drill is at least three hours of training, and four drills normally represent one weekend of training (equaling 8 hours on Saturday and 8 hours on Sunday). If no dollar amount is listed, then a dollar figure was not established for that category. When an enlisted Reservist was called for active duty during the 2013 calendar year, the Service member was salaried for his/her equivalent pay grade at the Basic Monthly Pay amount.

For each base, the zip code, nearest metro city, miles to nearest metro city, and total number of sponsors, dependents, and personnel are presented. The data in this table are based on the "duty locations" of the Sponsor only. There are instances where sponsors and dependents are co-located, but dependents may not be located at these installations.
